

abd weeke homag pdf

The Weeke ABD is a perfect compliment to a nested-based CNC machining center, or it can function independently as a stand-alone solution for horizontal drilling, gluing and dowel insertion. Increasing efficiency by minimizing set-up times and maximizing production times, the ABD drills, glues and inserts dowels within seconds.

A dramatically new approach to the design of a compact machining center, Weeke's new BHX series CNC machining centers are focused on the needs of closet, cabinet, and casegood manufacturers - large and small - and offers fast processing, simple operation, excellent processing quality and a great value for your investment.

HOMAG BHX Series â€“ CNC Machining Centers - Stiles Machinery

The MPRX format is a proprietary format of HOMAG Group. All information from the wood WOP document can be saved in MPRX format: - CAD elements - All macros - Variables - NC generator options Processing the MPR/MPRX file On the machine control unit, the NC generator converts an MPR/MPRX file into a machine-specific CNC program.

WEEKE ABD 150

The Weeke ABD 260 Optimat CNC drilling and dowel inserting machine is the perfect complementary product for all nesting solutions. The compact machine boasts high-speed, vertical and horizontal drilling gears, each with individually selectable spindles as well as one horizontal dowel insertion aggregate.

The Weeke ABD 260 Optimat CNC-drilling and dowel inserting

WEEKE ABD 100 is designed for small or large capacity horizontal drilling, gluing and dowel insertion. Built on a heavy-duty welded steel base. The main horizontal beams hold the carriage for the boring head and glue/water injector. Machine is set up for 8 mm dia. x 35 mm long dowels (additional dowel sizes optional), automatic vibrating feed hopper.
