

advanced science and technology pdf

Science and Technology of Advanced Materials is the leading open access, international journal covering a broad spectrum of materials science research including functional materials, synthesis and processing, theoretical analyses, characterization and properties of materials. Emphasis is placed on the interdisciplinary nature of materials science and issues at the forefront of the field, such ...

Science and Technology of Advanced Materials - IOPscience

Graphene quantum dot (GQDs) encapsulated melamine-formaldehyde (MF) polymer microspheres with a uniform particle size distribution and tunable high-quality white-light emission were prepared via polymer-mediated assembly and encapsulation. The luminescent properties were effectively regulated by the doping concentrations of GQDs in the MF polymer matrix.
