Download CrimeStat IV, documentation, sample data sets and libraries. CrimeStat IV (version 4.02) is the most recent version of CrimeStat, a spatial statistics program for the analysis of crime incident locations. CrimeStat was developed by Ned Levine & Associates of Houston, Texas, under the ...

CrimeStat: Spatial Statistics Program for the Analysis of

Advanced maternal age, in a broad sense, is the instance of a woman being of an older age at a stage of reproduction, although there are various definitions of specific age and stage of reproduction. The variability in definitions is in part explained by the effects of increasing age occurring as a continuum rather than as a threshold effect.. In Western, Northern, and Southern Europe, first ...

Advanced maternal age - Wikipedia

Spatial analysis or spatial statistics includes any of the formal techniques which study entities using their topological, geometric, or geographic properties. Spatial analysis includes a variety of techniques, many still in their early development, using different analytic approaches and applied in fields as diverse as astronomy, with its studies of the placement of galaxies in the cosmos, to ...

There is a growing concern in traffic accident rate in recent years. Using Mashhad city (Iran second populous city) traffic accident records as case study, this paper applied the combination of geo-information technology and spatial-statistical analysis to bring out the influence of spatial factors in their formation.

GIS-based spatial analysis of urban traffic accidents

ADVANCED SCIENCE LETTERS is a multidisciplinary peer-reviewed journal with a very wide-ranging coverage, consolidates fundamental and applied research activities by publishing proceedings from international scientific, technical and medical conferences in all areas of (1) Physical Sciences, (2) Engineering, (3) Biological Sciences/Health Sciences, (4) Medicine, (5) Computer and Information ...

Part I: Introduction to Nanoparticle Characterization with AFM 5 Revision.1/16/06.A Ensemble vs. Single-Particle Techniques Particle analysis techniques can generally be classified as ensemble or single-particle techniques.

Part I: Introduction to Nanoparticle Characterization with AFM

There is a robust international debate about how best to tackle spatial inequalities within nations and regions. The paper discusses three contrasting approaches: spatial rebalancing, space-neutral and place-based.

Spatial inequalities and policies in South Africa: Place

This document advises on best practices related to the publication of spatial data on the Web; the use of Web technologies as they may be applied to location. The best practices presented here are intended for practitioners, including Web developers and geospatial experts, and are compiled based on evidence of real-world application.
