Blockchain is already impacting companies across the finance, healthcare, and food industries. Here's how.

6 industries that are using blockchain to drive business

Microsoft has revealed its plans to use blockchain distributed-ledger technologies to securely store and manage digital identities, starting with an experiment using the Microsoft Authenticator app.

Microsoft: We're developing blockchain ID system starting

Combining software with something the company calls â€œtrusted hardwareâ€• will vastly expand what smart contracts can do.

Meet Oasis Labs, the blockchain startup Silicon Valley is

A few times a month, Bassam pushes a shopping cart through the aisles of a grocery store stocked with bags

of rice, a small selection of fresh vegetables, and other staples.

Inside the Jordan refugee camp that runs on blockchain

It is worth pointing out that this step requires you to pay for execution. Your balance on the account (that you put as sender in the from field) will be reduced according to the gas rules of the EVM once your transaction makes it into a block. After some time, your transaction should appear included in a block confirming that the state it brought about is a consensus.

Contracts â€” Ethereum Homestead 0.1 documentation

A rhizome has no beginning or end; it is always in the middle, between things, interbeing, intermezzo. The tree is filiation, but the rhizome is alliance, uniquely alliance.
