Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

One of the most obvious perceived contradictions between Torah and science is the age of the universe. Is it billions of years old, like scientific data, or is it thousands of years, like Biblical data?

How old is the world? What is the age of the universe?

You may have read our advice about developing your academic interests. Once you've chosen a course, do have a look at the 'reading, resources and events' section on the relevant subject page.
