Therefore, a cardiovascular exam should be a part of every abbreviated and complete assessment. A focused cardiovascular assessment is usually indicated after a comprehensive assessment indicates a

potential cardiovascular problem. ...

Focused Cardiovascular Assessment Print - RN.com

The heart receives oxygen-deficient blood (see the white arrows) from the body into the right upper atrium. When the heart contracts, the right lower ventricle will pump the blood into the lungs, where the carbon dioxide is exchanged for oxygen. After the exchange, the blood containing fresh oxygen flows into the left upper atrium.
