Chemistry of Materials (ACS Publications)

Computational chemistry is a branch of chemistry that uses computer simulation to assist in solving chemical problems. It uses methods of theoretical chemistry, incorporated into efficient computer programs, to calculate the structures and properties of molecules and solids. It is necessary because, apart from relatively recent results concerning the hydrogen molecular ion (dihydrogen cation ...

Chirality / k aÉª Èˆ r Ã! I Éª t i / is a geometric property of some molecules and ions. A chiral molecule/ion is non-superposable on its mirror image.The presence of an asymmetric carbon center is one of several structural features that induce chirality in organic and inorganic molecules. The term chirality is derived from the Ancient Greek word for hand, ἡ χείρ (kheir).

Overview of JBC's publication process. For initial submission, authors should prepare their manuscript as a single PDF file. At this stage, the primary goal is for the manuscript to contain the necessary information to enable a full scientific assessment, so while all sections of the manuscript need to be present, references need to be complete, and figures and tables need to be clearly ...

Instructions for Authors - jbc.org

Management Tips. All chemistry teachers should start the year by having students and parents/guardians sign a Student Safety Contract. I used this Flinn safety contract.; Show this "Lab Safety" video (requires Windows Media Player 10 or above) that was provided by Renee Diamond of the NSTA Listserve. The music in the video is from a band called "rhythm, rhyme, results."
