

**classical sociological theory pdf**

Dependency theory is the notion that resources flow from a "periphery" of poor and underdeveloped states to a "core" of wealthy states, enriching the latter at the expense of the former. It is a central contention of dependency theory that poor states are impoverished and rich ones enriched by the way poor states are integrated into the "world system".

**Dependency theory - Wikipedia**

pdf Version "The advance of civilization enables each of us to display unsuspected new virtues and vices which makes him dearer or more insupportable to his friends." (Marcel Proust, "In Search of Lost Time")
