Maho Dialog user manual D112 V3 02E - PDF Free Download

The dialog needs time to swallow the code, so you need handshake, i. e. you need the cable Ross suggested for it to work 100%. You'll benefit from 2 stopbits, it gives the Dialog more time to accept the code. Also, you'll need to add some line delay, start with 10ms. Find it in Properties>ASCII setup in Hyperterminal.
