Introduction Welcome to the Fundamentals of Design Drafting. The content presented in the Fundamentals of Design Drafting text is written to assist students in learning and developing a core knowledge of design/drafting and skill-building procedures.

### **The Fundamentals of Design Drafting A Studentâ€™s Guide**

Packaging is the science, art and technology of enclosing or protecting products for distribution, storage, sale, and use. Packaging also refers to the process of designing, evaluating, and producing packages. Packaging can be described as a coordinated system of preparing goods for transport, warehousing, logistics, sale, and end use.

A clamshell is a one-piece container consisting of two halves joined by a hinge area which allows the structure to come together to close. Clamshells are often made of a shaped plastic material, in a way that is similar to a blister pack. The name of the clamshell is taken from the shell of a clam, which it resembles both in form and function.
