WAMAP is a web based mathematics assessment and course management platform. Its use is provided free to Washington State public educational institution students and instructors.

WAMAP

Select any topic from the above list and get all the required help with math formula in detail. It contains a list of basic math formulas commonly used when doing basic math computation. Math formula shows how things work out with the help of some equations like the equation for force or acceleration. Eventually, formulas are used to provide mathematical solution for real world problems.

XtraMath® helps students transition from counting or calculating the basic math facts to recalling them. Quickly recalling math facts, instead of calculating them, frees up mental resources for higher-level operations. XtraMath™s timed activities encourage students to answer questions as quickly as possible.

The Clothesline is a manipulatable number line that makes the facilitation of class discourse on number sense much more efficient and effective. The Clothesline is dynamic, meaning that the "benchmark" numbers may be adjusted when needed, as well as the values that are placed on the line. My friend and colleague, Tim McCaffery of Fontana Unified says it best, "Theâ€¦"
