This paper represents the use of some tools and techniques for improving apparel sewing section efficiency throughout the production process. Now a day's apparel manufacturing industries are trying to develop their current production system and situation and continuously looking for new production tools and techniques in order to keep swiftness with the rapid changes of trend in consumers of ...

### **Improving Sewing Section Efficiency through Utilization of**

Outpatient services have become an important component of health care. By hidebound thinking, the medical profession emphasized that a physician's time is more valuable than a patient's time. Consequently, the appointment system was designed to minimize physicians' idle time overlooking patients' waiting time. This is no longer valid in today's consumer oriented society.
