Anatomy & Physiology I Anatomy & Physiology II Biology

Anatomy Physiology online course, self-paced. This online anatomy physiology class is fully accredited for CEUs upon completion. College credit hours can be awarded upon completion of the Anatomy Physiology online course.

Anatomy & Physiology Course Online - Accredited Class

Anatomy and physiology are the opposite sides of the same biological coin. Anatomy is the study of the body's internal and external structures while physiology studies the function of those structures, both singularly and in conjunction with one another.

Online Course: Anatomy and Physiology 101 - CEU

Anatomy (Greek anatomē, "dissection") is the branch of biology concerned with the study of the structure of organisms and their parts. Anatomy is a branch of natural science which deals with the structural organization of living things. It is an old science, having its beginnings in prehistoric times. Anatomy is inherently tied to developmental biology, embryology, comparative anatomy ...

Anatomy - Wikipedia

Human Anatomy and Physiology is designed for the two-semester anatomy and physiology course taken by life science and allied health students. The textbook follows the scope and sequence of most Human Anatomy and Physiology courses, and its coverage and organization were informed by hundreds of instructors who teach the course.
