Become familiar with - Educational Testing Service

Some of the major unsolved problems in physics are theoretical, meaning that existing theories seem incapable of explaining a certain observed phenomenon or experimental result. The others are experimental, meaning that there is a difficulty in creating an experiment to test a proposed theory or investigate a phenomenon in greater detail.. There are still some deficiencies in the Standard ...

Physics: Content Knowledge - ETS Home

The problem of induction is the philosophical question of whether inductive reasoning leads to knowledge understood in the classic philosophical sense, highlighting the apparent lack of justification for: . Generalizing about the properties of a class of objects based on some number of observations of particular instances of that class (e.g., the inference that "all swans we have seen are ...

The SAT Suite of Assessments is an integrated system that includes the SAT, PSAT/NMSQT and PSAT 10, and PSAT 8/9. These tests measure the same skills and knowledge in ways that make sense for different grade levels, so it's easier for students, parents, and educators to monitor student progress.

Senior Physics - Extended Experimental Investigations

This note provides an introduction to the mechanics of solids with applications to science and engineering. It emphasizes the three essential features of all mechanics analyses, namely: (a) the geometry of the motion and/or deformation of the structure, and conditions of geometric fit, (b) the forces on and within structures and assemblages; and (c) the physical aspects of the structural system ...
