

smart card api c pdf

The standard specifies a 'C' API called Cryptoki (Cryptographic Token Interface) which gives a common abstraction above all types of crypto devices. Nearly all smart card vendors provide a PKCS#11 library for their cards that you can program against using the Cryptoki API.

c++ - starting smartcard programming - Stack Overflow

The full version of all CardWerk Smart Card API development kits may be used free of charge for evaluation purposes, for purely private use, and for non-commercial educational use. A development kit license must be purchased only for commercial use or for redistribution of the runtime files.

CardWerk - .NET C# library for smart chip card and reader

Hi All, How to communicate with smart card Is there any API?. How to write/read image file from smart card using C#. Any Idea? Thanks, Sumos

SmartCard Reader API C# | The ASP.NET Forums

On top of that there are cards that look like smartcards but aren't really smartcards and don't even use any of the "standard" smartcard interfaces, so you end up using the Windows SmartCard API just to fire up your reader, and the smartcard reader's special API provided as a .lib in some obscure corner of their website for the rest...

C# smartcards programming - Stack Overflow

Smart Card API for .NET "a few lines of code is all it takes to access smart chip cards. Our class library and helper classes come with C# and VB.NET sample code. Easy-to-use managed code supports contact and contactless chip cards on PCSC compatible smart chip card readers and chip encoders built into plastic card printers.

Smart Card API - C# and VB.NET sample code for any chip

This is a major update which new features a complete rework of the code base. The most prominent new feature is the support for PC/SC Workgroup specification 2.0.1 part 10, which includes Secure PIN Entry (SPE).

SmartCardAPI Version History - SmartCard API for .NET

Smart Card SDK is a development kit for programming applications with smart cards on Windows platforms. The SDK provides a set of tools, libraries and manuals for smartcard programming in C++, C#, VB.NET, Visual Basic 6, Java, Delphi and other COM interop languages, accompanied by several code samples in various programming languages.

Smart Card SDK - Cryptware

This is the first release of Smart Card HOWTO. This document gives information on the smart card technology and its applications in Linux environment. Smart cards are mainly used in situations where security is an issue.
