Television (TV) is a telecommunication medium used for transmitting moving images in monochrome (black and white), or in colour, and in two or three dimensions and sound. The term can refer to a television set, a television program ("TV show"), or the medium of television transmission. Television is a mass medium for advertising, entertainment and news. ...

The economy of Mexico is the 15th largest in the world in nominal terms and the 11th largest by purchasing power parity, according to the International Monetary Fund. Since the 1994 crisis, administrations have improved the country's macroeconomic fundamentals. Mexico was not significantly influenced by the 2002 South American crisis, and maintained positive, although low, rates of growth after ...
