Palestine, area of the eastern Mediterranean region, comprising parts of modern Israel and the Palestinian territories of the Gaza Strip (along the coast of the Mediterranean Sea) and the West Bank (the area west of the Jordan River).. The term Palestine has been associated variously and sometimes controversially with this small region, which some have asserted also includes Jordan.

Attacking sharding from the application layer is simply wrong. This functionality should be left to the DBMS. Access from the app layer would be transparent and it would be up to the DB admin to configure the data servers correctly for sharding to automatically and transparently scale out across them.
