3 Aims of this review This literature review examines the effectiveness of family and relationship therapy and psychotherapy in relation to the following seven of the key modalities.

The Effectiveness of Family and Relationship Therapy

Family therapy, also referred to as couple and family therapy, marriage and family therapy, family systems therapy, and family counseling, is a branch of psychotherapy that works with families and couples in intimate relationships to nurture change and development. It tends to view change in terms of the systems of interaction between family members. It emphasizes family relationships as an ...
