Theories of personality / Jess Feist, Gregory J. Feist

From this combination of speculation and clinical evidence, Freud evolved the first modern theory of personality. Later, a number of other men and women developed theories of personality" some were based largely on philosophical speculation; others, mainly on empirical evidence, but all used some combination of the two.

Personality Psychology Textbooks

Trait theories of personality imply personality is biologically based, whereas state theories such as Bandura's (1977) Social Learning Theory emphasize the role of nurture and environmental influence. Sigmund Freud's psychodynamic theory of personality assumes there is an interaction between nature (innate instincts) and nurture (parental influences).
