A theory is a contemplative and rational type of abstract or generalizing thinking, or the results of such thinking. [better source needed] Depending on the context, the results might, for example, include generalized explanations of how nature works. The word has its roots in ancient Greek, but in modern use it has taken on several related meanings. ...

Downs and Mohr (1976) criticized uni-dimensional theories because of inconsistencies in the results of research. To explain these inconsistencies, innovation scholars have developed a second set of structural theories of innovation, usually referred to as the middle-range theories of organizational innovation.
